Hi All!

Thanks again to everyone who participated in the training yesterday. I thought it was alot of great information, and alot to try to cover and absorb in 2 hours ☺. So someone asked me today how they could learn more about these topics, and I put together the list of links below. If you have specific questions or topics that you want to know more about, give us a call. Maybe we can find you more information about it, or set up some more time to talk.

Greetings All!

The EPA and the ADEC have released Draft NPDES and Draft APDES General Permits for Oil and Gas Exploration (in Cook Inlet Federal and State Waters respectively) for concurrent 60 day public comment periods (March 22 thru May 21). These permits will authorize certain discharges of pollutants into Cook Inlet from oil and gas exploration facilities, subject to limits and requirements designed to minimize pollution and protect water quality.

The EPA’s draft general permit, fact sheet, and Ocean Discharge Criteria Evaluation (ODCE) have been mailed to Cook Inlet tribes. They are also available on EPA’s website at <http://yosemite.epa.gov/r10/WATER.NSF/NPDES+Permits/DraftPermitsAK>. The ADEC’s draft general permit documents will be available today on ADEC’s website under the Public Notices section at <http://www.dec.state.ak.us/water/wwwdp/index.htm>

In response to requests at meetings in February, the EPA will offer a “Permitting 101” training webinar with a focus on oil and gas for interested representatives of Cook Inlet tribal governments Wednesday April 10. or brown.katherine@epa.gov as soon as possible if you and/or a representative of your tribe are interested in participating.
